ABOUT ME

I'm a **Full/Mern Stack Developer** with hands-on experience **2+ years** working with Real-World projects using **Nextjs, Reactjs, Tailwind CSS, Expressjs, Nodejs, MongoDB** and **Supabase/Neon (PostgreSQL)**. I've done Bachelors in **Computer Science** from University of Baltistan Skardu.

WORK EXPERIENCE

🏢 **DevArtitect** – Remote, Pakistan

Full Stack Developer

[05/11/2025 – Current]

- Developed and maintained Frontend UI of Application using **React, Next.js, TypeScript**, and **JavaScript**.
- Built responsive, modern UIs using **Tailwind CSS** and **shadcn/ui**, focusing on clean, user-friendly designs.
- Collaborate closely with Team lead and Backend Developers.
- Integrate backend APIs as provided and maintain the UI/UX to display data in clean and informative way.
- Implement logics to dynamically render component and data on on UI pages.

🏢 **Silver Thread Labs** – Rawalpindi, Pakistan

Nextjs Developer

[01/07/2025 – 31/12/2025]

- Developed and maintained full-stack applications using **React, Next.js, TypeScript**, and **Supabase/Neon (PostgreSQL)** for robust and scalable solutions.
- Built responsive, modern UIs using **Tailwind CSS** and **shadcn/ui**, focusing on clean, user-friendly designs.
- Integrated and managed **third-party APIs** (authentication, payments, external services) to extend platform functionality.
- Implemented **AI-driven features** using **OpenAI APIs**, enhancing automation, personalization, and user engagement.
- Designed and shipped **browser extensions** with the **WXT framework**, emphasizing security, performance, and seamless UX.
- Developed, optimized, and consumed **RESTful APIs**, ensuring smooth async communication between frontend and backend.
- Collaborated closely with designers, product managers, and engineering teams to deliver intuitive, high-quality solutions.
- Debugged, optimized, and refactored code to improve system reliability, maintainability, and performance.
- Deployed and managed applications using modern CI/CD workflows and best practices.
- Maintained version control and collaborative development using **Git/GitHub**, including code reviews and branching strategies.

🏢 **Netbots** – Skardu, Pakistan

MERN Stack Web Developer

[15/05/2023 – 25/12/2024]

- **Creating Web Pages:** Building user interfaces and interactive web pages using Nextjs, React.
- **Creating Backend APIs:** Building APIs to handle backend logics using Expressjs.
- **Handling Data:** Managing data and interactions between the user interface and the server.
- **Working with Databases:** Storing and retrieving data in a MongoDB database.
- **Team Collaboration:** Working with designers and other developers to make the app come together.
- **Fixing Issues:** Identifying and fixing problems in the app to make it work smoothly.
- **Learning New Things:** Keeping up with the latest tools and ways of doing things.
- **Documenting Work:** Writing down how your code works so others can understand.
- **Managing Time:** Staying organized to get things done on time.
- **Learning and Growing:** Improving your skills and contributing to the team's success.

 **Curli Dev** – Remote, Norway

Nextjs Frontend Developer

[01/02/2024 – 30/05/2024]

- **Creating Web Pages:** Building user interfaces and interactive web pages using React in Nextjs framework along with TypeScript.
- **Team Collaboration:** Working with designers and other developers to make the app come together.
- **Fixing Issues:** Identifying and fixing problems in the app to make it work smoothly.
- **Learning New Things:** Keeping up with the latest tools and ways of doing things.

 **Corvit** – Islamabad, Pakistan

AI/ML Trainee

[01/01/2025 – 31/03/2025]

Python Programming

Learned how to write clean, logical Python code for solving real-world problems and automating tasks.

NumPy (Numerical Python)

Got comfortable working with arrays and performing fast mathematical operations essential for data analysis.

Pandas

Learned to organize, clean, and manipulate large datasets using powerful data structures like DataFrames.

Data Visualization (Matplotlib, Seaborn)

Explored ways to turn raw data into meaningful graphs and charts to uncover trends and insights.

Version Control with GitHub

Practiced tracking code changes, collaborating on projects, and managing versions using Git and GitHub.

Digital Image Processing

Gained hands-on experience in working with images like enhancing them or extracting useful features.

Mathematics for Machine Learning

Strengthened understanding of the core math behind ML like linear algebra, calculus, and probability.

Machine Learning

Built models that can learn from data to make predictions, detect patterns, or automate decisions.

Deep Learning

Took a step further into AI by using neural networks to solve more complex problems, such as image and speech recognition.

PROJECTS

[01/07/2023 – 31/12/2023]

Bon Appétit online ordering system (FYP)

- **Bon Appétit online ordering system** automates restaurant orders, improving efficiency and reducing errors.
- Built with Nextjs React, Express.js, and MongoDB, it offers a seamless customer experience.

EDUCATION AND TRAINING

Bachelor of Science in Computer Science

University of Baltistan [01/09/2019 – 07/08/2024]

City: Skardu | Country: Pakistan | Website: <https://www.uobs.edu.pk/>

SKILLS

Front-End

Material UI / HTML5 / CSS / JavaScript / TypeScript / React js/ts / Tailwind CSS / Context Api / nuqs / OpenAI APIs Integration / react ai-sdk / Tanstack Query / Shadcn

Back-End

Nodejs / Expressjs / MongoDB / CORS / JWT / Authentication and Authorization / SignIn with Google / Multer / PostgreSQL / Prisma ORM / NeonDB / Supabase / Stripe Payments

Next Js/Ts

SSR (Server Side Rendering) / Dynamic Routing / App Router / Serverless Application / SSG (Static Site Generation) / ISR (Incremental Static Regeneration) / CSR (Client-Side Rendering) / Cache Components / Partial Prerendering (PPR) / Caching APIs and Revalidation / Suspense and Streaming / Server Actions

Others

Git & Githubs / Microsoft Office / Google Docs / Zoom / Google meet / Jira / Discord / vercel / Deployment / Monorepo / turborepo / AI Integration / System Prompt / OpenAI / Gemeni

AI/ML

Python / numpy / Pandas / Data Visualization / Data analysis / Machine Learning / Deep Learning / ANN / SVM / CNN / seaborn / m atplotlib / Supervised Learing / Linear Regression / Logistic Regression / Unsupervised Learning / Clustering / LSTM / RNN

Web Extension

WXT / Shadow DOM / Custom UI Components / Background Scripting / Content Scripting / Extension Bridging / React / Tailwind / s hadcn / Browser APIs

LANGUAGE SKILLS

Mother tongue(s): Balti

Other language(s):

Urdu	English
LISTENING C2 READING C2 WRITING C2	LISTENING B1 READING B2 WRITING B2
SPOKEN PRODUCTION C2 SPOKEN INTERACTION C2	SPOKEN PRODUCTION A1 SPOKEN INTERACTION A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
